

Quartet

- card game

Shall we play a Game?

Quartet - card game

The aim of the game is to collect 4 cards in a series. You need at least four players to play this game. If there are more than 8 players you can play it in two groups and divide all 14 word groups into two.

STARTING THE GAME: Shuffle the deck and deal out the deck as evenly as possible to all players. The player to the dealer's left starts the game. On a player's turn, he/she may ask another player for a specific card he/she is looking for. For example: Have you got a „tomato”? If a player has the card that matches what you asked for, they must give it to you. Your turn continues and you may ask for another card from the same, or a different opponent. If they do not have in hand the card you requested, your turn is over, and the turn is passed to them.

When a player has four of a kind in hand, he/she places all four face-up on the table in front of him / her. A four of a kind is called a Quartet. There are 14 Quartets in the deck.

The game ends once all Quartets are collected and counted. The player with the most Quartets wins the game.

Enjoy the game 😊
